DETAILED ACTION

- Response to the applicant's amendment dated 10/1/2009
- Claims 1-7 have been submitted for examination
- Claims 1-7 have been allowed

Response to Arguments

1. Applicant's arguments, see pages 5-9, filed 10/1/2009 have been fully considered and are persuasive. The rejections of claims 1-6 under section 102(e) have been withdrawn.

Allowable Subject Matter

2. Claims 1-7 are allowed.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

3. The independent claims 1 and 4 of the present application teach for example (as per claim 1):

A Digital Television (DIV) receiver, comprising:

a receiving unit for receiving a transmission signal including general data and robust data and converting the transmission signal into a base-band signal;
an equalizing unit for determining a symbol level of the transmission signal;
a trellis decoding unit for performing trellis decoding on a symbol of the

determined level;
a nonsystematic Reed Solomon (NRS) decoding unit for performing NRS decoding on the trellis-decoded robust data and for performing robust data error correction on the trellis-decoded robust data; and
a restoring unit for restoring a digital video data stream with respect to the trellis-decoded general data and the NRS-decoded robust data.

The foregoing limitations are not found in the prior art of record. Particularly, none of the prior arts of record teach nor fairly suggest the emphasized limitation as cited in the independent claim 1 that comprises:

A Digital Television (DIV) receiver, comprising:
a receiving unit for receiving a transmission signal including general data and robust data and converting the transmission signal into a base-band signal;
an equalizing unit for determining a symbol level of the transmission signal;
a trellis decoding unit for performing trellis decoding on a symbol of the determined level;
a nonsystematic Reed Solomon (NRS) decoding unit for performing NRS decoding on the trellis-decoded robust data and for performing robust data error correction on the trellis-decoded robust data; and

a restoring unit for restoring a digital video data stream with respect to the trellis-decoded general data and the NRS-decoded robust data.

4. Claims 2, 3 and 7 depend from claim 1.
5. Claims 5 and 6 depend from claim 4.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
